guide to shower
glass and mirrors

NATIONAL GLASS
Diamond Quality Glass & Service

everything you need to create a beautiful bathroom

| Say goodbye to boxy, cramped bathrooms |

Say hello to a spacious new aesthetic, where frameless glass, stylish mirrors and high-quality accessories enhance your lifestyle.

National Glass can help you achieve a thoroughly modern look, with clean lines and minimalist styling that adds visual appeal while remaining highly practical.

We'll help you create the look you want – and our proven installation systems and experienced trades professionals will ensure the result complies with the New Zealand Building Code. Then you can relax and enjoy a bathroom that's beautiful as well as highly functional.

to give you more freedom, we took a visionary approach

The modern trend in architecture is to treat bathrooms as a spacious sanctuary for relaxation as well as private place for showering. Marrying the pragmatic with the personal, many designers have come up with innovative layouts that feature large, non-standard showers.

Obviously, a conventional shower box is not going to work here. So National Glass uses clever technology to provide some more creative options.

Thinking outside the box

Frameless glass showers are an increasingly popular choice for design and aesthetic reasons. The use of large panes of glass in showers, either as a stand-alone material or in combination with metal or timber, gives you the opportunity to create a design that adds real value to the home.

Of course, you want the shower to be functional as well as enhancing the look of the bathroom. Frameless toughened safety glass is the perfect option to deliver safety and durability as well as looking great.

Combined with glass surface effects such as frosting, translucence and decorative laminating, a truly unique look can be achieved.

Whatever the space, whatever the architectural concept, our frameless shower glass range offers you the freedom to embrace new possibilities in design.

SLIDING FRAMELESS GLASS

the possibilities are inspirational

beautiful bathrooms start with clean lines and an impression of space

Clutter is banished and elegance is achieved through the imaginative use of minimalist design. So bring us your plans and ideas. We'll show you how to put together a spacious shower with the innovative use of frameless glass and complementary fittings.

It's not simply a matter of showing you a brochure and some product samples. Our experienced team will talk you through all the options with full specifications and installation details, so you'll be equipped to realise your vision.

Form meets function and durability

Correct installation is essential to ensure the performance and integrity of the shower. National Glass offers an extensive range of proprietary fixing systems, as well as a network of experienced installers, to ensure the result complies with the Building Code.

you'll soon see the benefits of top quality mirror glass

complete the picture with a magnificent mirror

Mirrors enhance the spacious feel of your bathroom through the capture and reflection of light. But while a simple, classic wall mirror can be wonderful on its own, the options don't end there.

National Glass can help you create mirrors in a variety of shapes, sizes and designs, with polished and bevelled edges or decorative effects such as sandblasting or v-cuts. Heating pads can be added behind the mirror to provide a mist-free surface.

Our mirrors are produced without copper or lead. This innovative manufacturing process is kinder to the environment while improving the durability and optical quality of the product.

Stylish hardware to complement any look

To enhance your shower and bathroom, National Glass offers a complementary range of high-quality hardware fittings and handles. These provide you with many intriguing options during the design process.

Keep glass looking like new with Diamond Coat

Because frameless glass showers are designed to impress, it makes sense to keep the glass looking like new. An application of Diamond Coat produces an invisibly thin, durable, non-stick surface that protects the glass from corrosion and prevents dirt and contaminants building up.

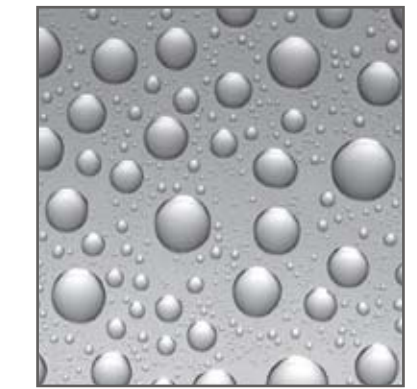

You won't need to clean as often – and when you do, a quick wipe is all it takes. So you'll not only enjoy a shower unit that stays crystal clear, but you'll be saving water and avoiding the use of harsh chemical cleaners. For more information refer to our Diamond Coat Brochure.
